AS I GO ON MY WAY

By STRICKLAND GILLILAN

MY LIFE shall touch a dozen lives before this day is done—
Leave countless marks for good or ill ere sets this evening's sun.
Shall fair or foul its imprint prove, on those my life shall hail?
Shall benison my impress be, or shall a blight prevail?

When to the last great reckoning the lives I meet must go,
Shall this wee, fleeting touch of mine have added joy or woe?
Shall He who looks their records o'er—of name and time and place—
Say: "Here a blessed influence came," or "Here is evil's trace?"

From out each point of contact of my life with other lives
Flows ever that which helps the one who for the summit strives.
The troubled souls encountered—does it sweeten with its touch,
Or does it more embitter those embittered overmuch.

Does love through every handclasp flow in sympathy's caress?
Do those that I have greeted know a newborn hopefulness?
Are tolerance and charity the keynote of my song
As I go plodding onward with earth's eager, anxious throng?

My life must touch a million lives in some way ere I go
From this dear world of struggle to the land I do not know.
So this the wish I always wish, the prayer I ever pray:
Let my life help the other lives it touches by the way!

ALUMNI GATEWAY

ALUMNI GATEWAY

The Alumni Gateway, erected in 1915 to commemorate the centennial anniversary of the graduation of the first class in the "Old Northwest," stands a monument to the loyalty and generosity of the Alumni of the Ohio University. It is a perpetual reminder of what the Alumni are willing and capable of doing for their Alma Mater.

It is the remembrance of the successful campaign in the spring months of 1915, and the enthusiastic response given to that appeal which prompts the writer to again take charge of the Alumni Secretaryship after a lapse of more than three years. In resuming these duties, he bespeaks the continued co-operation of the Alumni body, now increased by many hundreds. The magnitude of the task is fully realized and no amount of influence could have prevailed on him to renew his former relations to the organization if there had not been the feeling that a ready response was in waiting.

To sum it all up, the writer believes in the Ohio University and its future. Its splendid history and traditions should make it one of the very best-loved and respected institutions in the Ohio Valley. None realize this more than those who have gone forth from its halls to help in the world's work. The purpose of the Alumni Association is to pool this respect and make of it a force to increase the influence and prestige of the old school which has meant so much to us all.

The best asset a college can have is a loyal, enthusiastic body of Alumni, ever willing to champion the cause of their Alma Mater. Believing that Ohio's Alumni are capable and willing to perform their part in adding to the laurels of their Alma Mater the undersigned hopes he may be able in some small way to further the cause.

Very sincerely,

C. L. Martzloff, '07.

THE PRESIDENT'S GREETING

To the Alumni of Ohio University:

Greeting, with expression of personal regard and best wishes, from the Executive Office of the University:

I am asked to say a few words to you through the medium of an announcement that will reach you from the office of the Alumni Secretary, Prof. C. L. Martzloff.

Matters at Ohio University are now fast returning to ante-war conditions. Our halls are thronged with new students and more are registering each week. Under conditions which can be brought about, Ohio University could easily give desirable educational help to 1500 students. Concerted effort, loyal effort, on the part of those interested, and those who ought to be more interested, will bring these students to the University.

I need not call your attention to our advantages of location and surroundings. You are familiar with them. No other institution of learning in Ohio offers better.

The pressing need at this time, as I see it, is the hearty, continued, and well-directed co-operation of the Alumni with the University authorities.

This co-operation will be evidenced in part, by your cheerful and prompt response to any inquiries and requests sent you by the Alumni Secretary. Then comes the organization of a body of alumni wherever such organization can be made effective—and it can be so made in many more cases than those following former efforts.

The Alumni Associations are the real power behind the throne, if they do not occupy it. They are the right arm, as they should be, of executive service and influence.

Institutions of learning are rated by public opinion according to student attendance, financial support, and, last but not least surely, their educational product. In all these, Ohio University makes a creditable showing but it ought to make, and can make, a better one.

More students and increased financial support from the State will give the workers in college halls desired opportunity for rendering more and better educational service. To bring about these much desired conditions, the alumni can be of great service.

Every time there is evidence of alumni interest and support, there comes to those in the home field great

encouragement with renewed activity in the right direction.

My wish is to see every alumnus of Ohio University a field agent working for its growth and betterment. Effort by the alumni can send to our halls 200 new students every year. The same effort brought to bear on those in legislative halls will result in a most needed increase in the appropriations voted for institutional support.

Alumni should visit the University in term time more frequently. Of course, there is a limit to such visits on account of distance and pressure of other service. The Annual Commencement season ought to bring to Athens a large number of enthusiastic and interested alumni. The alumni surely know that their presence at the University at

that time, and upon other occasions, is a source of pleasure and inspiration to every active worker in college halls.

Finally, I make urgent request that answers from you to requests sent you by the Alumni Secretary be not delayed; that you secure, and file for future reference, the publications of the University—catalog, annual report, "Green and White," etc.—and that you keep in close and friendly touch with your fellow-alumni both in your immediate locality and in the Alumni Associations which will be more numerous, it is hoped, than ever before.

Alston Ellis.

President's Office,
Ohio University,
September 22, 1919.

THE ALUMNI ASSOCIATION

If the Alumni hope to accomplish anything tangible for the Ohio University, it will be necessary to establish and maintain a strong, efficient general organization. This can only be done by every Alumnus becoming a member of the Association. The policy of the officers is to bring this about at once, before anything else is done. A drive with this in view is now on among the Athens local Alumni with flattering results. The hope is that by the first of the year, the number who have not enlisted as members will be a negligible one. Let each Alumnus take this as a personal appeal to himself to "come across" that the next issue of the Bulletin may contain a respectable list of new members.

The second requisite for an efficient organization is a sufficient fund with which to carry on its work. In this connection a word concerning the arrangements made with the University authorities is necessary. To begin with, your Secretary serves without salary. The work of directing the Alumni Department is additional to his duties in the Chair of History in the Arts College. The salary of the assistant secretary is met by the University, together with a budget of \$300 for the first year. The other expenses, including the printing of the Bulletin, are to be paid by the General Association. It is due to President Ellis and the Business Manager, Mr. H. H. Haning, that the Alumni office has been well

fitted with suitable furniture and equipment; nothing further could be desired along that line.

There is a decided feeling among the Alumni that the Association should be made self-supporting as soon as possible. There is no question but what it can be done, and that quite efficiently if the Alumni show the proper spirit and interest.

The Constitution of the Association provides an annual membership fee of one dollar. This is entirely too low when compared with other institutions of equal rank with the Ohio University. Besides, that amount did not include the Alumni Bulletin. Yet under the rules, a sum greater than the dollar cannot be exacted.

In the drive for membership, the officers have asked prospective members to add to the regular fee such amount as they feel disposed to give as an earnest of their interest. The request has met with hearty response. Up to date the sums given have ranged from one dollar to five, and the hope is entertained that there are some among the Alumni who can see ten dollars or even more in the building of a strong organization. Let us do it NOW and then go on to something else!

THE VERIFICATION CARDS

The Alumni Verification Cards have already been mailed to the Alumni and many have been returned. The office during the past several years, especially

in the months of the war, has lost scores of addresses. These we are anxious to find again.

May we presume on your help by asking you to furnish us the addresses of such Alumni as you happen to know? It would materially aid the office in reconstructing the files.

THE ALUMNI BULLETIN

The success of the *Alumni Bulletin*, which was published through quite a few numbers some five years ago, guarantees it, we hope, a hearty reception on its reappearance. How often it will be published or how large it will be has not been decided by the Committee, but we are glad to send out this issued in the way of a starter. The plans as to its contents are also in a formative stage. We hope to make it

a medium for Alumni matter and Alumni interests. It will be sent to all Alumni who return their verification cards, since that alone insures the correct mailing address.

ALUMNI NEWS NOTES

In order that the *Bulletin* may be made a real success, it will be necessary for the office to be kept in touch with the doings, the comings, and the goings of our Alumni. When new honors come to you, let us know about them. We want to know what you are up to, how you and the world are getting on together, when you are married, when the new baby came, etc., etc., and your friends want to know it, too. The *Bulletin* will be your messenger to inform them. Let us have the news.

KEEPING THE HOME FIRES BURNING

As an earnest of their interest in the welfare of the Alumni Association, the local Alumni living in Athens have organized an Association as an aid to the larger work. This resident body has set itself to do great things during the year. A glance at the list of officers is evidence of its sincerity in bringing about results. At an enthusiastic meeting held on October 6, the following persons were selected: President, Dr. W. F. Copeland, '02; Secretary-Treasurer, Julia L. Cable, '19; Executive Committee, Prof. A. A. Atkinson, '91, Dr. L. G. Bean, '99, Thomas Wolfe, '19, Mary E. Kahler, '02, and Anna Pickering, '14.

The first task set by the newly created organization was to make a drive for membership to include all the local

Alumni. The list, recorded on another page, evidences the successful work of the committee. Arrangements are being made for a series of Alumni Lunches to be held during the winter, at which time programs for the good of the cause are to be given; and last, but not in any wise the least, the committee has set about to get ready for "big doings" at the next Commencement season. It is the hope that June will see more "old grads" on the campus than there have been since the Centennial Pageant in 1915. It is the intention of the local Association to be a real host to the visiting Alumni, and an interesting program for their entertainment is to be worked out. All of this means, of course, that out of town "grads" might as well make up their minds to come home next summer.

OFFICERS OF THE GENERAL ALUMNI ASSOCIATION

The following constitutes the governing body of the General Association for the year 1919-1920:

President, Judge D. H. Thomas, '96.
 Secretary, C. L. Martzloff, '07.
 Treasurer, J. R. Morton, '05.
 Executive Committee:
 Judge L. G. Worstell, '88, Chairman.
 Mrs. Belle Mercer, '18.
 Mrs. Mary Townsend Porter, '02.

ACROSS THE DIVIDE

Christine Elizabeth Law, Class of 1915

Christine Elizabeth Law (Mrs. Don C. Nye) died on June 24, 1919, in Buenos Aires, Argentina. She was born in Franklin county, Virginia, August 8, 1892, and came with her parents to Ohio in 1899. Her high school work was done at Chauncey, graduating in the class of 1907.

During her college life at Ohio, she was active in many of the auxiliary or-

ganizations and took high rank as a student in the College of Liberal Arts. She took great interest in the Y. W. C. A., serving once as President. She was a member of the English Club; belonged to Cresset; a member of Alpha Xi Delta sorority; a member of Philomathean Literary Society; served on the staff of the **Green and White**, and also did service on the staff of the Athena, aiding in getting out the Centennial number of that publication.

Miss Law was married September 2, 1916, to Dr. Don Carlos Nye and started at once for her future South American home, where she made a host of friends and took an active part in various organizations of American women. She was temporarily buried in the British section of the Chacarita cemetery in Buenos Aires. Among the many floral emblems sent to her funeral was one from Ambassador and Mrs. Stimson.

Christine Law was one of the best known students at Ohio in recent years, active in college affairs, standing high as a student in her classes and taking rank among the best in her classes. Her untimely death will prove a shock to her classmates and associates of former days. A few days since her body arrived from its long sea voyage and was re-interred at her old home at Chauncey.

Russell Sedwick Devol, Class of 1870

(Died July 19, 1916.)

No doubt there have been many of our Alumni during the strenuous days of war through which we have recently passed who have gone.

Among the first to come to our attention is that of Prof. Russell Sedwick Devol, Emeritus Professor of History of Kenyon College. He died July 19, 1916. Prof. Devol belonged to the class of 1870. He was born in Washington county, Ohio, in 1846; matriculated at O. U. in 1865; he was a Philomathean, a Beta Theta Pi and took his Master's Degree in 1873. As an undergraduate he made an excellent record in mathematics. After graduation he held the Chair of Natural Science in Dickinson Seminary, Williamsport, Pa., from 1871-73; then back to Ohio from '73 to '83; in the latter year he went to Kenyon, where for thirteen years he had charge of Mathematics. From 1898-1903 he was with the Westinghouse Electric Company, then he returned to Kenyon and went

into the History Department, where he remained until a short time before his death.

Prof. Devol was a graduate student at Johns Hopkins in 1896 and for six years (1878-84) he was acting Assistant U. S. Coast and Geodetic Survey.

In the death of Prof. Devol O. U. has lost a good friend. He was devoted to his Alma Mater and was interested in her success. Many of the older students will regret to hear of his death.

Ashley Francis Foss, Class of 1897

(Died February 17, 1918.)

The following is part of a letter recently received from Mrs. Mabel D. Foss, of Chicago:

Dear Mr. Martzloff: Ashley Francis Foss was born in Chicago, August 26, 1875. He went to Leland Stanford University in California for two years, then went to Athens when his uncle, Dr. J. P. Gordy, was in the faculty. You may recall he was the Honor Student, the first one in fifty-two years. He practiced law in Chicago for three years, then taught Law and Biology in the Chicago High Schools. He wrote a manual, and handbook for teachers and pupils, which was highly thought of and used in the schools—a Manual of Physiography, I think. He traveled extensively in Europe; he crossed six times and was familiar with the Bermuda and the West Indies.

He made an Ecological Survey for the government under the University of Chicago, in Arizona and the adjoining states. In 1913 he had pneumonia which left his left lung weak. He went down to Mexico for seventeen months and we thought he was recovering, but he continued to have recurrences till February 17, 1918, he went away forever. Oh, you can never know the aching void he has left in our hearts and the desolation in our home. He was most beloved in his work and everywhere he went that beautiful spiritual presence drew everyone to him. Many a "God bless you" he received from the downhearted and discouraged; they would come to him instinctively. Walking on the streets he would suddenly stop and put his hand on some man's shoulder; he never missed it. I don't mean professional beggars but people who were suffering and trying to hide it. God never made a lovelier son to a mother.

Eli Dunkle, Class of 1877

(Died February 17, 1919.)

In Memoriam.

How softly thru the chapel's storied
pane,
A flood of rainbow sunshine pours like
rain

Upon his face a little while,
And bathes in light his kindly smile.

Again the sunlight searches for him
there,
But finds where he has been an empty
chair,
And yet it seeks him not in vain,
What seems all loss has this of gain:

That every face remaining here awhile
Reflects the mellow kindness of his
smile,

And days to come, some sunbeam fair
Shall find him living everywhere.

—Josephine Wuebben, '21.
